

INSERTER FILM EXPERTS

Regarded as the highest quality manufacturer of inserter film in the US, Profile Films delivers proven consistency, machine-ability and on-time delivery. As an approved supplier for bag inserter machine manufacturers like Pattyn North America, Pearson Packaging Systems, OK International Corp. and K&R Equipment, Inc. we understand the importance of consistent quality films.

GFSI / BRC CERTIFIED

In October 2017, Profile passed its 'GFSI / BRC Certification' audit with an 'AA Rating'.

This achievement demonstrates our comprehensive commitment to food safety, product quality and best in class manufacturing.

State of the art equipment and documented processes ensure product quality and consistency.

Over the last 19 years Profile Films has worked to become the most knowledgeable supplier of inserter films for all machine brands and types.

Our ability to work within tough, technical specifications makes the film we produce of the highest quality. It's within these technical applications that we truly edge out our competition.

MANUFACTURING PRECISION

Whether it is proper wind tension or even gauge distribution, we pay close attention to all the aspects that make up best in class inserter films.

19 years and millions of pounds of bag-in-box film has given us the experience to provide our customers with product that meets specification and exceeds expectation.

CUSTOM PRODUCTS

At Profile, our goal is to partner with you in order to supply the exact product you need for your specific application. It is our job to understand inserter machine capabilities and limitations, but we also recognize that you have a specific production process that other packagers or manufacturers may not share.

We want to ensure that you have the right product, at the right time, with the right specifications.
